

STUDY OF BRAIN INJURY & COGNITIVE FLEXIBILITY

CHRYSIKOU COGNITIVE
NEUROSCIENCE LAB

We are looking for adults 25 to 45 years old with a diagnosis of traumatic brain injury (TBI) or post-concussive syndrome and non-injured control participants.

WHAT IS THIS STUDY ABOUT?

Many people with TBI experience cognitive flexibility difficulties.

This online study is administered by a trained researcher.

Your participation is 100% voluntary.

Participation can be completed in one 60-90-minute session.

You are compensated **\$15 per hour** for your time.

ARE YOU ELIGIBLE?

- **25 to 45** years old.
- Native English speaker.
- If you have a **mild TBI** and sustained your injury at least 3 months ago.
- If you have a **moderate to severe TBI** and sustained your injury at least 12 months ago.
